This two-day workshop by Sigma Threat Management Associates featuring Gene Deisinger, Ph.D will help participants to better understand the dynamics of targeted violence and to develop and enhance strategies for early identification, assessment, and intervention with concerning situations.

Day One will provide participants with a working understanding of issues related to targeted violence, implementing a multi-disciplinary and systematic approach to assessment and management of cases, conducting contextually based assessment of cases, developing integrated intervention and case management strategies, and understanding foundational legal and policy issues in conducting such practices in accordance with professional standards.

Day Two will incorporate the use of case studies and facilitated discussions regarding critical issues (facing threat assessment teams) to enhance each participant's ability to apply concepts discussed on Day One of the workshop.

### Instructor

Dr. Gene Deisinger is a Principal and Co-Founder of SIGMA and also serves as the Threat Management Consultant for the Virginia Center for School and Campus Safety. He is a licensed psychologist, certified health service provider in psychology, and a certified law enforcement officer (retired). Dr. Deisinger has managed cases, and provided consultation and training for a broad range of governmental agencies, schools, campuses, government agencies, and other workplaces. Dr. Deisinger is lead author of The Handbook for Campus Threat Assessment & Management Teams and has served as a subject matter expert for several professional and governmental initiatives related to enhancing safety in a broad range of organizations.
